

MINUTES OF THE KENTUCKY FEDERATION OF FIRE CHAPLAINS

Regular meeting held at the Area 5 Training Center in Elizabethtown Tuesday September 19th at 12 Noon with 10 members and 2 visitors present. Woody Will hosted the meeting and lunch in conjunction with Area 5 Coordinator Casey Hall. We thank Woody for all he does for the KFFC.

All reports were accepted by the president as presented.

President Ennis welcomed the group and explained how the various monies that come into the organization are used.

Renelle Grubbs from Kentucky Community Crisis Response Board (KCCRB) was asked to speak to the organization to explain the roll of KCCRB and the chaplain as a member of the team. A very good discussion was held with some important concepts being explained. Woody as editor of the KFA Smoke Signals ask if he could get an article from the Ms. Grubbs explaining what the KCCRB is and what benefits a chief could get from the services of a Kentucky Community Crisis Response Team (KCCRT) during a local emergency. The other guest Reverend C. J. Wright said she would see would put the article together and get it to Woody. Chaplains make sure your chief gets to see the article when the December Issue of the newsletter comes out.

We just had a Chaplain Class at the Jefferson County Fire School 23rd and 24th of September. The class was well attended with good participation. It was very informative. National Federation of Fire Chaplains Conference will be held in St. Joseph Missouri on October 22nd through 26th, 2006. So far there are 7 going from Kentucky. The next meeting will be in Louisville Kentucky at Ryan's Restaurant Tuesday November 21, 2006 at 12 noon. The restaurant is located at 4711 Dixie Highway.
